Gun ☐ Archery ☐

Date _____ Time _____

Conf. #_____

All deer and turkey harvested at Fort Knox must be checked-in through the KDFWR's Telecheck System (www.fw.ky.gov or 1-800-245-4263) by midnight on the day it is harvested. Select Hardin (047), Meade (082), or Bullitt (015) Counties, then Public Land, then Fort Knox Military Reservation. If not sure of the county, just select Hardin (047), no issues if wrong county as long as one of the three counties above, then public land, then Fort Knox Military Res.

Harvest must also be reported at check-out in the iSportsman system. The confirmation number obtained from the KDFWR's Telecheck System must be recorded on the Fort Knox Harvest Log. When a deer is harvested, you must immediately record the sex, date, time, number of points (1 inch or longer), antler spread 12 inches or greater (True/False, circle one or the other if antlered deer), and Hunting Area on the Fort Knox Harvest Log before the animal is moved. A carcass tag is required if a harvested deer leaves the hunter's possession for any reason. A carcass tag can be handwritten and must include the hunter's name and phone number.

When a turkey is harvested, you must immediately record the sex, date, time, weapon used, length of beard, and Hunting Area on the Fort Knox Fall Harvest Log before the animal is moved.
